## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on December 14, 2004 has been entered.

### ***Terminal Disclaimer***

2. The terminal disclaimer filed on 10/21/04 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,555,593 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Allowable Subject Matter***

3. Claims 1-25 are allowed.

The following is an examiner's statement of reasons for allowance: none of the prior art of record, teaches or fairly suggests the claimed XML system for printing bar code labels, tags, tickets, cards or other media comprising, among other things, a computer system having a memory subsystem, a communication interface, an XML processor configured to process an XML input data stream, an extensible stylesheet language transformation (XSLT) processor, an extensible stylesheet language formatting object (XSLFO) processor, and a rendering subsystem configured to receive the formatted XML data and generate a bit map representative of the bar code label, tag, ticket, card or other media. The invention has unique constructional and

functional features to print bar code labels based on an XML data stream. Additionally, using XML may avoid many of the problems and pitfalls associated with other non-human readable methods. Furthermore, the applicant filed a Terminal Disclaimer, which overcame the Double Patenting rejection, communicated in a previous Office Action. Accordingly, one of ordinary skill in the art would not have been motivated to modify teachings of prior art to meet the claimed limitations as set forth in the present claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
